35 responses

- Lack of centralized information (like website) about upcoming…
- Confusing registration processes
- Payment issues (no convenient online payment options)
- No group registration support
- Difficulty in receiving event updates (e.g., schedule chan…
- Overlapping event dates

Pie chart values: 25.7%, 11.4%, 42.9%, 14.3%

## How easy is it for you to currently find events like hackathons and ideathons **relevant to you**?

Copy

35 responses

- Very easy (I find them with no issues)
- Somewhat easy (I can find a few but not all)
- Hard (I struggle to find the right events)
- Very hard (I almost never find relevant events)

Pie chart values: 34.3%, 11.4%, 48.6%

If you could change one thing about the current registration or discovery process, what would it be?

35 responses

NA

More free events for rural students

The format

Multiple people host the same event which is kinda confusing.

Do not use 3rd party platform for payment

Proper update about the events

Make everything available online for colleges

-

Na

You have to login every time to register, no auto log in

Best support

centralized information (like website) about upcoming events

By website

Nice

I have no idea

Decentralised organisations and notification

Nothing

Make it more easier

A portal that keeps us updated about everything happening around. Also, mentioned under specific courses. So it's easier for students to segregate.

there to be a centralized website where all the events are posted.

Nothing actually

.

NA

Process of the registration

Better availability of information

Easy accessibility

make it online

We can hv an app for this for sure ,i would be a great idea

Keep multiple ppl working under groups and according ppl like how they do in call centres

More information provided

Better awareness to the events

The registration form must contain clear description of the event
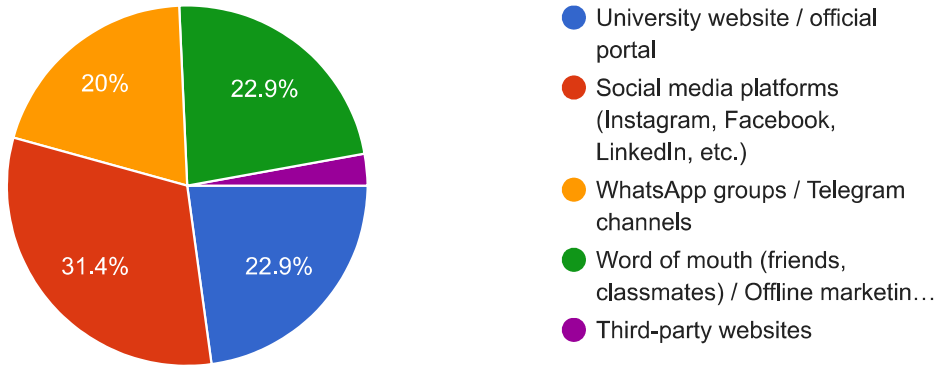

One solution to find events

I suggest to add a recomender for each person which suggests the type of events they are interested in. This will bring more intrest towards participation.

Convenience

## How often do you **currently** participate in events like hackathons or ideathons?

## Any additional comments or suggestions?

12 responses

Na

A centralised website would be helpful

-

We require additional platform to register

N/A

.

NA

It's a grt start.
We needed something like this

Na

Eagerly waiting for the dedicated platform

Open idea to solve daily problem

Google Forms
